## AREAS OF INTEREST

- Polar lows dynamics
- Mesoscale meteorology
- Atmospheric energetics
- Atmospheric boundary layers
- Extraterrestrial meteorology

## Education

- 2014–Present PhD in Meteorology  
Thesis title: **Dynamics and Predictability of Polar Lows**  
*School of Environmental Sciences*  
*University of East Anglia*  
Supervisor: [Ian A. Renfrew](#)
- 2009–2014 Specialist Diploma in Meteorology  
With Honours  
Thesis title: **Idealised numerical modelling of polar mesocyclone dynamics**  
*Faculty of Geography*  
*Lomonosov Moscow State University*  
Supervisor: [Victor Stepanenko](#)

## Internships

- Oct 2013 *University of Bergen*  
Geophysical Institute  
Bergen, Norway  
Supervisor: [Thomas Spengler](#)
- Jul 2012 *A.M. Obukhov Institute of Atmospheric Physics*  
Laboratory of Climate Theory  
Moscow, Russia  
Supervisor: [Alexey Eliseev](#)

## Vocational training

- Apr 2016 WWRP/WCRP/Bolin Center Polar Prediction School
- Dec 2014 UK Met Office Unified Model Training
- Sep–Dec 2011 Global Climate Change course

## ON-LINE COURSES

- MetEd Topics in Polar Low Forecasting
- MetEd Arctic Meteorology and Oceanography
- MetEd Skew-T Mastery
- MetEd Principles of Convection: Buoyancy and CAPE
- MetEd Using Scatterometer Wind and Altimeter Wave Estimates in Marine Forecasting
- MetEd Polar Satellite Products for the Operational Forecaster: Microwave Analysis of Tropical Cyclones
- MetEd How Mesoscale Models Work

MetEd Jet Streams  
 MetEd Downscaling of NWP Data  
 MetEd Satellite Feature Identification: Cyclogenesis  
 MetEd The Balancing Act of Geostrophic Adjustment  
 MetEd Introduction to Statistics in Climatology  
 MetEd Monitoring the Climate System with Satellites  
 Coursera High Performance Scientific Computing  
 INTUIT Parallel Programming Using MPI Technologies

## Fieldwork Experience

Aug 2012 **Field practice in meteorology**  
*Study of prevailing mesoscale processes via wind characteristic measurements and lake hydrothermodynamical modelling*  
 Kronotsky National Reservation, Kamchatka pen., Russia

Jan–Feb 2012 **Field practice in meteorology**  
*Measurements of the convective boundary layer over the polynya*  
 White Sea Biological Station, Karel Republic, Russia

Jun–Jul 2011 **Field practice in meteorology**  
*Basic field techniques in atmospheric sciences (atmosphere vertical structure, turbulence and radiative measurements)*  
 Khibiny mountains, Murmansk region, Russia

Jan–Feb 2011 **Field practice in meteorology**  
*Micrometeorological measurements, ice-breeze modelling*  
 White Sea Biological Station, Karel Republic, Russia

Jun–Jul 2010 **Field practice in geographical studies**  
*Basic training in meteorology, hydrology, geomorphology, soil science, biogeography, topography*  
 Kaluga region, Russia

## Teaching Experience

2015–Present **Teaching assistance**  
 University of East Anglia  
 Courses:

- Meteorology
- Modelling Environmental Processes
- Dynamical Meteorology
- Numerical Skills for Scientists
- Physical and Chemical Processes in Earth's System

## Publications

### PEER-REVIEWED

1. Eliseev AV, Sergeev DE. 2014. Impact of Subgrid Scale Vegetation Heterogeneity on the Simulation of Carbon Cycle Characteristics. *Izvestiya, Atmospheric and Oceanic Physics*, 50(3): 259–270

### PROCEEDINGS

1. Sergeev DE, Stepanenko VM. 2013. Numerical modelling of polar mesocyclones generation mechanisms. *International Conference "Turbulence, atmosphere and climate dynamics" dedicated to A.M. Obukhov, Selected papers*: 168–170
2. Sergeev DE, Zamyatina MY, Stepanenko VM. 2013. Thermal regime features of Kronotsky lake (in Russian). *Kronotsky State Natural Biosphere Reserve Proceedings*, 3: 29–41
3. Sergeev DE, Stepanenko VM. 2012. Parameterization of mesoscale sensible heat and methane fluxes in the region of Western Siberia. *International Conference and Early Career Scientists School on Environmental Observations, modelling and Information Systems (ENVIROMIS-2012), Selected papers*: 67–69

## Conferences and Workshops

### ORAL PRESENTATIONS

- Apr 2016 **Structure of the shear-line polar low south of Svalbard**  
*13th European Polar Lows Working Group (EPLWG) Workshop*  
Paris, France
- May 2016 **Structure of the shear-line polar low south of Svalbard**  
*NORPAN kick-off meeting*  
Tokyo, Japan

### POSTER PRESENTATIONS

- Jul 2015 **Structure and dynamics of a shear-line polar low during a cold-air outbreak over the Norwegian Sea**  
*Royal Meteorological Society Student Conference*  
Birmingham, UK
- Mar 2015 **Structure and dynamics of a shear-line polar low during a cold-air outbreak over the Norwegian Sea**  
*Dynamics of Atmosphere-Ice-Ocean Interactions in the High Latitudes workshop*  
Rosendal, Norway
- May 2014 **Numerical modelling of polar mesocyclones dynamics diagnosed by the energy budget**  
*European Geosciences Union (EGU) General Assembly*  
Vienna, Austria
- Apr 2013 **Impact of subgrid-scale vegetation heterogeneity on results of climate model simulation of carbon cycle**  
*European Geosciences Union (EGU) General Assembly*  
Vienna, Austria
- Apr 2013 **Numerical modelling of polar mesocyclones generation mechanisms**  
*European Geosciences Union (EGU) General Assembly*  
Vienna, Austria

## Awards and Scholarships

- 2015 **Travel Award**  
Dynamics of Atmosphere-Ice-Ocean Interactions in the High Latitudes workshop
- 2014–2018 **Lord Zuckerman scholarship**  
School of Environmental Sciences, University of East Anglia
- 2014 **Young Scientist's Travel Award (YSTA)**  
European Geosciences Union (EGU) General Assembly
- 2014 **Russian Academy of Sciences Young Scientist Medal**  
In the area of oceanology, atmospheric physics and geography
- 2009 **3rd place in the All-Russian Geography Olympiad**
- 2009 **1st place in the Lomonosov Geography Olympiad**

## Grants

- 2014–2016 **Characteristics of the mesoscale atmospheric circulations in the Arctic and their influence on the atmosphere-ocean energy exchange**  
Russian Foundation for Basic Research (RFBR) Grant
- 2013–2015 **Multiscale modelling of turbulent atmospheric flow above sea surface with inhomogeneous ice cover**  
Russian Foundation for Basic Research (RFBR) Grant
- 2013–2015 **Developing and verification of the mesoscale sensible heat and tracers fluxes over hydrologically inhomogeneous surface**  
Grant of the President of Russian Federation

## Membership in Professional Associations

- 2014–Present **Royal Meteorological Society (RMetS)**

## Vocational Experience

- 2015–Present **Python group coordinator**  
*Managing an unofficial group of Python language users*  
University of East Anglia, UK
- Mar 2015 **Rapporteur**  
*Dynamics of Atmosphere-Ice-Ocean Interactions in the High-Latitudes workshop*  
Rosendal, Norway
- Jun–Jul 2014 **Professional translator**  
*Translation of documentation of meteorological equipment (En-Ru)*  
Retail and Consumer Merchandise “Meteomaster” (Moscow, Russia)
- Aug–Sep 2013 **Weather Forecaster**  
*Forecast and Briefing Service*  
Main Aviation Meteorological Centre, Vnukovo Airport (Moscow, Russia)

## Outreach

- 2015–Present **Contributor to SciSnack blogging platform**
- Polar Lows: What Fuels Arctic Hurricanes?
  - Disastrous Disaster Movies
  - Worldwide Weird Weather Words

## Computer Skills

Operating systems	<b>Linux</b> , Unix, Windows
Computer Languages	<b>Python</b> , Fortran
Data analysis and visualizing	<b>Python</b> , MATLAB, NCL, Paraview
Parallel programming	MPI, OpenMP
Version control systems	Git, Subversion
Document preparation	LaTeX, Markdown
Web development	HTML, CSS

## Languages

Russian	Native speaker
English	Fluent
French	Basic
