meteodenny

#### Areas of Interest

- · Polar low dynamics
- · Mesoscale meteorology
- · Atmospheric energetics
- · Atmospheric boundary layer
- · Extraterrestrial meteorology

### Education

2014-Present PhD in Meteorology

Thesis title: Dynamics and Predictability of Polar Lows

School of Environmental Sciences University of East Anglia Supervisor: Ian A. Renfrew

Specialist Diploma in Meteorology 2009-2014

With Honours

Thesis title: Idealised numerical modelling of polar mesocyclone dynamics

Faculty of Geography

Lomonosov Moscow State University Supervisor: Victor Stepanenko

# Internships

Oct 2013 University of Bergen

Geophysical Institute Bergen, Norway

Supervisor: Thomas Spengler

Jul 2012 A.M. Obukhov Institute of Atmospheric Physics

Laboratory of Climate Theory

Moscow, Russia

Supervisor: Alexey Eliseev

### **Publications**

#### PEER-REVIEWED

- 1. Sergeev DE, Renfrew IA, Spengler T, and Dorling SR. 2017. Structure of a shear-line polar low. Q.J.R. Meteorol. Soc., 143(702): 12-26
- 2. Spengler T, Renfrew IA, Terpstra A, Tjernström M, Screen J, Brooks I, Carleton A, Chechin D, Chen L, Doyle J, Esau I, Hezel P, Jung T, Kohyama T, Lüpkes C, McCusker K, Nygård T, Sergeev DE, Shupe M, Sodemann H, and Vihma T. 2016. High Latitude  $Dynamics \ of \ Atmosphere-Ice-Ocean \ Interactions. \ \textit{Bulletin of American Meteorological}$ Society, 97(9): ES179-ES182
- 3. Eliseev AV, Sergeev DE. 2014. Impact of Subgrid Scale Vegetation Heterogeneity on the Simulation of Carbon Cycle Characteristics. Izvestiya, Atmospheric and Oceanic Physics, 50(3): 259-270

#### **PROCEEDINGS**

- 1. Sergeev DE, Stepanenko VM. 2013. Numerical modelling of polar mesocyclones generation mechanisms. *International Conference "Turbulence, atmosphere and climate dynamics" dedicated to A.M. Obukhov*, Selected papers168–170
- 2. Sergeev DE, Zamyatina MY, Stepanenko VM. 2013. Thermal regime features of Kronotsky lake (in Russian). *Kronotsky State Natural Biosphere Reserve Proceedings*, 329–41
- 3. Sergeev DE, Stepanenko VM. 2012. Parameterization of mesoscale sensible heat and methane fluxes in the region of Western Siberia. *International Conference and Early Career Scientists School on Environmental Observations, modelling and Information Systems (ENVIROMIS-2012)*, Selected papers67–69

### Conferences and Workshops

#### ORAL PRESENTATIONS

#### Apr 2016 Structure of the shear-line polar low south of Svalbard

13th European Polar Lows Working Group (EPLWG) Workshop

May 2016 Structure of the shear-line polar low south of Svalbard

NORPAN kick-off meeting

Tokyo, Japan

#### POSTER PRESENTATIONS

# Jul 2015 Structure and dynamics of a shear-line polar low during a cold-air outbreak over the

Royal Meteorological Society Student Conference

Birmingham, UK

# Mar 2015 Structure and dynamics of a shear-line polar low during a cold-air outbreak over the Norwegian Sea

Dynamics of Atmosphere-Ice-Ocean Interactions in the High Latitudes workshop Rosendal, Norway

#### May 2014 Numerical modelling of polar mesocyclones dynamics diagnosed by the energy budget

European Geosciences Union (EGU) General Assembly

Vienna, Austria

# Apr 2013 Impact of subgrid-scale vegetation heterogeneity on results of climate model simulation of carbon cycle

European Geosciences Union (EGU) General Assembly

Vienna, Austria

#### Apr 2013 Numerical modelling of polar mesocyclones generation mechanisms

European Geosciences Union (EGU) General Assembly

Vienna, Austria

# Awards and Scholarships

2015 Travel Award

Dynamics of Atmosphere-Ice-Ocean Interactions in the High Latitudes workshop

2014-2018 Lord Zuckerman scholarship

School of Environmental Sciences, University of East Anglia

2014 Young Scientist's Travel Award (YSTA)

European Geosciences Union (EGU) General Assembly

2014 Russian Academy of Sciences Young Scientist Medal

In the area of oceanology, atmospheric physics and geography

2009 3rd place in the All-Russian Geography Olympiad

2009 1st place in the Lomonosov Geography Olympiad

#### Grants

2014–2016 Characteristics of the mesoscale atmospheric circulations in the Arctic and their influence on the atmosphere-ocean energy exchange

R	necian	Found	lation	for	Rasic	Re	search	(RFBR)	Grant

 ${\tt 2013-2015} \quad \text{Multiscale modelling of turbulent atmospheric flow above sea surface with inhomogeneous}$ 

ice cover

Russian Foundation for Basic Research (RFBR) Grant

2013-2015 Developing and verification of the mesoscale sensible heat and tracers fluxes over

hydrologically inhomogeneous surface

Grant of the President of Russian Federation

### Vocational training

Apr 2016 WWRP/WCRP/Bolin Center Polar Prediction School

Dec 2014 UK Met Office Unified Model Training

Sep-Dec 2011 Global Climate Change course

#### On-line courses

MetEd Topics in Polar Low Forecasting

MetEd Arctic Meteorology and Oceanography

MetEd Skew-T Mastery

MetEd Principles of Convection: Buoyancy and CAPE

MetEd Using Scatterometer Wind and Altimeter Wave Estimates in Marine Forecasting

MetEd Polar Satellite Products for the Operational Forecaster: Microwave Analysis of Tropical Cyclones

MetEd How Mesoscale Models Work

MetEd Jet Streams

MetEd Downscaling of NWP Data

MetEd Satellite Feature Identification: Cyclogenesis

MetEd The Balancing Act of Geostrophic Adjustment

MetEd Introduction to Statistics in Climatology

MetEd Monitoring the Climate System with Satellites

Coursera High Performance Scientific Computing

INTUIT Parallel Programming Using MPI Technologies

FIRST AID

Feb 2017 Level 1 First Aid for Field Work course

### Fieldwork Experience

#### Aug 2012 Field practice in meteorology

Study of prevailing mesoscale processes via wind characteristic measurements and lake

hydrothermodynamical modelling

Kronotsky National Reservation, Kamchatka pen., Russia

### Jan-Feb 2012 Field practice in meteorology

Measurements of the convective boundary layer over the polynya

White Sea Biological Station, Karel Republic, Russia

#### Jun-Jul 2011 Field practice in meteorology

 $Basic\ field\ techniques\ in\ atmospheric\ sciences\ (atmosphere\ vertical\ structure,\ turbulence\ and$ 

radiative measurements)

Khibiny mountains, Murmansk region, Russia

#### Jan-Feb 2011 Field practice in meteorology

Micrometeorological measurements, ice-breeze modelling

White Sea Biological Station, Karel Republic, Russia

#### Jun-Jul 2010 Field practice in geographical studies

Basic training in meteorology, hydrology, geomorphology, soil science, biogeography, topography Kaluga region, Russia

# **Teaching Experience**

#### 2015-Present Teaching assistance

University of East Anglia

 Modelling Environmental Processes Module organiser: Ian Renfrew Meteorology

Module organiser: Ian Refrew

• Dynamical Meteorology

Module organiser: Adrian Matthews

 Numerical Skills for Scientists Module organiser: Claire Reeves

 Physical and Chemical Processes in Earth's System Module organiser: Parvadha Suntharalingam

## Membership in Professional Associations

2014–Present Royal Meteorological Society (RMetS)

### **Editorial Service**

Acted as reviewer for Quarterly Journal of the Royal Meteorological Society

## **Vocational Experience**

Nov 2016 Training course "Introduction to Python in Environmental Sciences"

Course leader

University of East Anglia, UK

2015-Present Python group coordinator

Managing an unofficial group of Python language users

University of East Anglia, UK

Mar 2015 Rapporteur

Dynamics of Atmosphere-Ice-Ocean Interactions in the High-Latitudes workshop

Rosendal, Norway

Jun-Jul 2014 Professional translator

Translation of documentation of meteorological equipment (En-Ru)

Retail and Consumer Merchandise "Meteomaster" (Moscow, Russia)

Aug-Sep 2013 Weather Forecaster

Forecast and Briefing Service

Main Aviation Meteorological Centre, Vnukovo Airport (Moscow, Russia)

#### Outreach

#### 2015-Present Contributor to SciSnack blogging platform

- Polar Lows: What Fuels Arctic Hurricanes?
- Disastrous Disaster Movies
- Worldwide Weird Weather Words

## Computer Skills

Operating systems Linux, Unix, Windows Computer Languages Python, Fortran

Data visualisation Python, MATLAB, NCL, Paraview

Parallel programming MPI, OpenMP
Version control systems Git, Subversion
Document preparation LaTeX, Markdown
Web development HTML, CSS

### Languages

Russian Native speaker

English Fluent French Basic
